

Supporting global farmers

We know our operations can support those living in the poorest countries. We are committed to selling Fairtrade tea and coffee.

We monitor and improve our operations through our Eat Well and Environmental policies which can be viewed by scanning here.

Responsibly sourced

We understand the importance of protecting our oceans and the livelihoods they sustain and only serve fish certified against the Marine Stewardship Council's (MSC) scientific standard for sustainable fishing.

We monitor and improve our operations through our Eat Well and Environmental policies which can be viewed by scanning here.

Reduce, reuse, recycle

We ensure our waste does not go to landfill by committing to reduce, recycle, reuse where we can and sending any remaining waste to be converted into energy.

We monitor and improve our operations through our Eat Well and Environmental policies which can be viewed by scanning here.

Staying hydrated

We know how important water is in helping our bodies and brains to function. We have joined the Refill Revolution ensuring our customers have access to over 25 free tap water stations across campus.

We monitor and improve our operations through our Eat Well and Environmental policies which can be viewed by scanning here.

Protecting the planet and promoting good health

We know plant-based food is good for the planet and the body and so we actively promote vegetarian and vegan alternatives in all our catering outlets.

We monitor and improve our operations through our Eat Well and Environmental policies which can be viewed by scanning here.

Living with less plastic

We recognise that single use plastics are unsustainable.

We only sell water in recyclable cans or sugar cane bottles.

We monitor and improve our operations through our Eat Well and Environmental policies which can be viewed by scanning here.

Reducing our carbon footprint

We are working with our suppliers to reduce the number of deliveries to campus and by buying local whenever possible.

We monitor and improve our operations through our Eat Well and Environmental policies which can be viewed by scanning here.
